Ashkona, Dhaka, Bangladesh

Tech enthusiast with a passion for solving real-world problems and staying ahead of the curve. I thrive in fast-paced environments, pick up new tools quickly, and bring a fresh, practical approach to challenges. Always curious, always learning - I'm driven to create impact through collaboration, innovation, and smart technology.

EXPERIENCE

Executive - Software Deployment

Cultive8 Technologies Ltd

April 2024 - Present

- Led and executed successful software deployments across diverse client environments, ensuring alignment with client requirements and overall project goals.
- Provided expert technical support, including on-site troubleshooting, to quickly resolve deployment challenges and maintain high client satisfaction.
- Managed and deployed ERP solutions for leading Bangladeshi tea companies, showcasing domain-specific expertise and a strong grasp of industry needs.
- Oversaw end-to-end project management activities, including planning, resource coordination, risk mitigation, and stakeholder communication to ensure timely delivery.
- Conducted software requirement analysis and rigorous QA testing, ensuring system reliability and performance before final rollout.
- Designed intuitive user interfaces and led user training sessions, facilitating smooth adoption and efficient system utilization.
